

 Surtees Business Park,
Stockton-on-Tees,
TS18 3HR

 Full AV fitout in meeting and
cinema rooms with supporting
IT and network infrastructure.

 Installation of AV conference
facilities including HDMI and VGA
connections, full fitout of high-spec
cinema and gaming room, CCTV
system installation and supporting
network infrastructure.

SOLUTION

TCS were able to put together a solution that met the requirements set out by Level Q. This included a full fit out of the boardroom which included installation of an audio conference unit, a 65" Smart LED TV, as well as all accompanying patch leads. The fitout of a high-spec cinema/gaming room, including a 4K projector, surround sound speakers, the configuration of multimedia consoles (Blu-Ray player and Amazon Fire Stick) and all supporting HDMI, VGA and audio connections.

In addition to the main areas, TCS also fitted TV's to the gym and reception areas, installed a full CCTV system and configured a digital visitor check in system via an iPad to increase efficiency.

RESULT

As a result of the infrastructure that TCS installed, businesses will be able to stay connected and run their businesses with an improved level of productivity and efficiency. Level Q are fully equipped to house the next generation of businesses, help them grow and it is already gaining a reputation of the fun and innovative workspace that was set out in the plans.

BRIEF

Level Q is based in Surtees Business Park just off the A66 in Stockton and offers state of the art office facilities for businesses in Teesside. Born from the brains of property investors Preston Cherry, the building boasts a range of workspaces from hot-desks to larger suites for up to 20 people.

Occupiers will also have access to high-spec meeting and conference rooms, an in-house café, gym facilities and a cinema room. Having only opened in Autumn 2018, it is hoped that Level Q will represent the next generation of workspace, offering something innovative and brand new to the Teesside area.

"We're very happy with the work TCS did for us. The team were a pleasure to deal with and they've managed to carry out work to a really high standard. Thanks to them, we've managed to achieve the exciting, modern and collaborative workspace we hoped to create"
