

PROJECT MANAGEMENT

TCS offer **full project management** as a standard with any project that is signed off. From concept to completion, we have **experienced professionals** on hand to oversee any size of project. We always provide a **risk assessment** and our team are fully qualified to carry out the tasks with the appropriate training in place.

BREAK AND FIX

Hardware failures within your core infrastructure can compromise the service you deliver. The **break-fix service** from **TCS** gives you access to a team of **skilled engineers** to quickly resolve hardware issues.

What TCS can offer:

- Services tailored to your needs
- Quick response times
- Nationwide coverage
- Certified, skilled engineers supported by senior technical consultants
